APPLICATIONS FOR HARLEY-DAVIDSON SOFTAIL 2018-

PART NO NIX 22: FKS 221/222 • **PART NO STX 46:** HD 501/502

The Öhlins NIX 22 cartridge kit is based on experience learned through decades of high end suspension manufacturing. The kit delivers loads of performance with stable damping characteristics while ensuring a smooth comfortable ride.

The kit has the Öhlins proven "NIX" design which features compression damping in the left leg and rebound damping in the right leg, which allows for a more precise function and stability. Adjustments are made at the top together with the spring preload and the cartridge system fits bolt-on and is easy to install in standard front forks.

The all new STX 46 shock absorber for the 2018 Harley-Davidson softail gives an impressive increase in performance and comfort. Developed to make those long cruises more comfortable but also give the necessary support when hitting the winding roads. This STX 46 has some unique features such as a silver hydraulic preload adjuster, black spring, custom black preload handle with laser etched Ö logo and CNC machined Aluminum handle to look great on all versions of the new Softail!

NIX 22 CARTRIDGE KIT FEATURES

- > NIX-technology
- > External Compression & rebound adjustment
- > External preload adjustment
- > 22 mm piston diameter
- > Range of springs available
- > Öhlins Setting Bank

STX 46 SHOCK ABSORBER FEATURES

- > STX-technology
- > Hydraulic preload adjuster
- > Monotube shock absorber
- > A range of spring rates available
- > Maintenance possibilities
- > 46 mm piston diameter
