NIX 22 CARTRIDGE KIT

BIKES: YAMAHA R25/R3, HONDA CBR250/300R, KAWASAKI NINJA 250/300R, YAMAHA MT-07, KAWASAKI ER6N

The Öhlins Road & Track NIX22 cartridge kit is based on experience learned through decades of testing and racing in high tier championships. The kit delivers loads of performance with stable damping characteristics while ensuring great comfort, contributing to rider confidence. This technology is now available for you whether you own a light weight sport bike such as the Yamaha R3 or Honda CBR 300R or a street bike such as the Yamaha MT-07 or the Kawasaki ER6N; you can now enjoy improved handling and rider experience.

The Kit has the Öhlins proven "NIX" design which features compression damping in the left leg and rebound damping in the right leg, which allows for a more precise function and stability. Adjustments are made at the top together with the spring preload and the cartridge system fits bolt-on and is easy to install in standard front forks.

The NIX22-kit has been tested extensively and tailor made to suit the individual requirements and characteristics for each individual bike.
