## SHOCK ABSORBER FOR HD STREET ROD XG750

**PART NO:** HD 793

Harley Davidson Street Rod, an aggressively styled ride with dark custom styling.

Öhlins has now also designed twin rear shock absorbers in Black to compliment the bikes styling. These Blackline dampers will not only match your motorcycle perfectly but also improve suspension performance to the best.

Öhlins STX 36 monotube high pressure gas type of shock absorbers with internal reservoir. Adjustable spring preload, rebound damping and length adjuster allows you to adjust the dampers to suit your weight and riding style. You will feel improved comfort and traction whether you go for a short blast or a long cruise.

### STX 36 SHOCK ABSORBER FEATURES

- > Monotube high pressure gas type of shock absorber with internal reservoir in the main body
- > Fully adjustable rebound damping
